SUMMARY

Software Engineer with over 3 years of experience architecting high performance and scalable Backend & AI applications.

EDUCATION

SOMAIYA VIDYAVIHAR UNIVERSITY, June 2023
Master of Technology in Computer Engineering
- *Publication* – Plastic Waste Detection by Object Recognition using Computer Vision and AI Technologies

UNIVERSITY OF MUMBAI, June 2021
Bachelor Of Technology in Computer Science Engineering
- *Publication* – Proposed Approach for Personalized Health Assistance

WORK EXPERIENCE

MIRAE ASSET SHAREKHAN, *Assistant Manager – Digital Channel, IT* November 2022 - Present | Mumbai

- Co-architected scalable Low Code No Code (LCNC) framework accelerating deployments **by 75%**
- Reduced enterprise application development cycles from **3+ months to less than 3 weeks**
- Implemented dynamic entity creation, custom search engine, and complex workflow engine
- Built reporting engine, RBAC and custom security framework **doubling** LCNC security
- Developed LCNC-based DIY and Franchise onboarding applications, reducing account opening time from **days to 24 hrs**
- Engineered "SharekhanMCP" for high-volume trading APIs, reducing research TAT by **99.8% from 48 hours to 5 minutes**
- Integrated RAG for "SharekhanKar" across platforms, automating **60%** of capital market–related user queries
- Developed an AI agent "ShareBOT" as a conversational interface for automating the end-to-end trading experience
- Implemented highly concurrent data migration tool in **Go**, Building a centralized data source **halving** migration effort

SKILLS

Programming Languages – Java, Python, Go, React, Native

Databases – SQL, Redis, Vector DB

Tools – Spring Boot, Azure, GCP, Git, Lang graph, Docker, Kafka, Fast API, Django, Fast MCP, Kubernetes

ACADEMIC / PERSONAL PROJECTS

Plastic Waste Management - *python, computer vision, hyperspectral imaging*
- Built an AI-powered computer vision system to detect plastic objects
- Enhancing waste management efficiency using multispectral imaging data

3 Level Security for Login (3FA) – *java, react*
- Designed and implemented a secure three-layer login mechanism
- Integrating QR code, OTP, and image-based graphical authentication

Health Assistance Application (MyHeathMate) – *java, react, firebase, python anywhere cloud, scikit-learn*
- Designed and implemented a health assistance application
- Enhancing doctor–patient interaction, facilitates patient monitoring and delivers yoga recommendations

POSITIONS OF RESPONSIBILITY / ACHIEVEMENTS

- Finalist – SEBI GFF Hackathon 2025
- Winner – Mirae Asset Sharekhan Roarathon 2023
- Technical Assistant – Inventory & Network Management at JNPT (2019–2020)
- Event Co-Coordinator – Alegria (Pillai University Fest 2019-20)
